

CORESPONDENTA LUCRARI / AUTORI / PAGINA /ID

CNAE 2014

Sec i- unea	ID	Titlul lucr rii	Prim autor	Co-autori	Pagina
S 1	82	Researches regarding the factory test of electric high-duty and high voltage equipment.	Aurel Campeanu	Gh. Liuba I. Piroi L. Augustinov E. Spunei	211
S 1	83	Comparative FEM-based Analysis of Multiphase Induction Motor	Leonard Livadaru,	C. Nu escu, A. Munteanu, A. Simion, M. Cojan	223
S 1	4	Influence of Starting Cage Material upon Dynamic Behaviour of Reluctance Synchronous Motors	Sorin Enache	A. Campeanu, I. Vlad, M.A. Enache	27
S 1	6	Influence of Stator Winding Resistance upon Maximum Torque of Reluctance Synchronous Motors	Monica-Adela Enache,	Gh.E. Sub irelu, N. Boteanu, M. Dobriceanu	47
S 1	5	Utility of Numerical Methods in Establishing Performances of Low Power Synchronous Motors	Ion Vlad	A. Campeanu, S. Enache, M.A Enache	35
S 1	3	The Hermetic Synchronous Engines for Pumping the Aggressive Liquids	Tudor Ambros	M. Burduniuc	15
S 1	9	Investigation on self-organization processes in DC generators by synergetic modeling	Ion Vencil	M. Costin R. Buhosu	55
S 1	72	Teaching platform for DC electric drives	Ioan Drago Deaconu	A.I. Chiril , V. Navrapescu, A.S. Deaconu	187

S 1	73	Rotor pole pitch factor influence on the operation parameteres of a 9/10 pole permanent magnet synchronous machine	Florin Lazar	A. Simion, L. Livadaru, O. Dabija	197
S 1	64	Application of Finite Element Method to Determine the Performances of a Permanent Magnet Synchronous Motor for Driving a Bicycle	Nicolae Diga	C. Ghi , S. M. Diga, D. Constantin, M. Brojboiu	157
S 1	81	Practical Platform for Open and Closed Loop Speed Control of an Inverter Driven Asynchronous Machine Used for Teaching Purposes	Dan Claudiu Rus	t. Matis, I. I. Incze, I. Birou	203
S 1	69	New Adaptive Observer for Sensorless Induction Motor Drives	Olimpiu Stoicuta	T. Pan	175
S 1	14	Topology Optimization of Switched Reluctance Motors to Increase Energy Efficiency	Ion Voncil	R. Buhosu, M. Costin	65
S 1	68	On the Magnetic Flux Density Analytical Calculation in the Air-Gap of Electric Machines with Wide Open Slots	Alina Cristina Viorel	I. A. Viorel, L. Strete	167
S 1	58	Current state of research at the EMAD Research Centre from „ tefan cel Mare“ University in connection with actuators and solar motors with solid heating medium	Adrian-Neculai Romanescu	O. M. an a, M. Poienar, I. Ni an, C. Ungureanu, L. Mandici, D. Cernomazu	123
S 1	60	Contributions Concerning the Clock Hour Figure Utilization for the Power Transformer Diagnostic	Cristina Prodan	M. Poienar, O. M. an a, A. N. Romanescu, D. . Georgescu, D. Cernomazu	145
S 1	57	Considerations Concerning Matrix Diagram Transformations Associated with	Mihaela Poienar	D. t. Georgescu, O.M. an a,	111

		Mathematical Model Study of a Three-phase Transformer		Ni an I., E.D. Olariu, D. Cernomazu	
S 1	56	Particular Matrix in the Study of the Index Hour Mathematical Model	Mihaela Poienar	D. t. Georgescu, O. M. an a, I. Ni an, E.D. Olariu, D. Cernomazu	101
S 1	26	Considerations Regarding the Oportunity of Using Psychological Techniques to Stimulate Solutions Characterized by Novelty and Inventive Step in TISR Transformers and Electric Motors with Shorted Moving Coil	Georgescu Daniel tefan	Poienar M., ŢaŃa O.M., Romanescu A.N., Olariu E.D., Cernomazu D.	77
S 1	27	Contributions to the Transient Study of an Electric Motor with Shorted Moving Coil	Georgescu Daniel	I. NiŃan, O. ŢaŃa, M. Poienar, D. Cernomazu	89
S 1	59	New Sspects Concerning the CEUS Figures Identified at Ferrofluid Utilisation in Rotating Magnetic Field	Ovidiu Magdin an a,	M. Poienar, A.N. Romanescu, M.B. Negru, D. Cernomazu	135
S 1	89	A MATLAB graphical user interface dedicated to the optimal design of the high power induction motor with heavy starting conditions	Maria Brojboiu	V. Ivanov	231
S 1	92	Modernization of the Grinding Electromechanical Drive System of the Automated Coffee Machine	Ilie Nuca	A. Ţurcanu	251
S 1	95	On The Optimal Selection of Electrical Machines Fans	M d lin Costin	I. Dobrot , I. Voncil , M. Oanc	263
S 1	96	Alternative Design Relationship of Inner Diameter for Fault Approach of Salient Poles	Ion Dobrota	M. Costin, I. Voncil ,	273

		Synchronous Machine		M. Oanc	
S 1	90	Assessment of Electromagnetic Stress in a Permanent Magnet Synchronous Machine with Commutable Poles	M d lin Costin	I. Dobrot , I. Voncil , I. Paraschiv	239
S 2	70	D.c.-d.c. converter controlled by optic fiber channels.	Marinel Popescu	C. C r mid C. Bolta u	305
S 2	36	dSPACE Implementation of the Third Harmonic Insertion based Modulation on the Three Phase Power Inverter	Marian Gaiceanu	C. Nichita	295
S 2	16	The Use of Current Generators in Electrical Converter Drives for Stepper Motors	Emanoil Toma	-	283
S 3	75	The command by GSM for positioning systems of anti-hail ramps	Gheorghe Manolea	F. Ravigan A. Novac	316
S 3	2	Control System for Producing Electricity with Dual Stator Winding Cage-Rotor Induction Generator	Lucian Nicolae Tutelea,	S. I. Deaconu, G. N. Popa	323
S3	79	Speed Digital Control of Brushless DC Motor Using dsPIC Controller	Gheorghe B lu	Gh. Ursanu	375
S3	87	Command and running of an experimental model vehicle for covering a labyrinth type runway	Eugen R duca	A. F. P un, M. R duca, C. Ha iegan, S. Dr ghici, C. Rudolf, L. Cândea	335
S3	65	A Solution to Study Different Homing Methods Using a PLC	Mihai Ra	A. Graur, L. Mandici, G. Ra	367
S3	61	The command of the flour transport pumps in a cereal mill with PLC Siemens S7-1200	Eugen R duca	M. Schmidt, S. Ungureanu, M. R duca, C. Ha iegan, N. Pop,	357

				F. Nov cescu	
S3	91	Design and Control of the Electric Drive of the Anti-Hail Launching System	Gheorghe Manolea	S. Ivanov, L. Alboteanu, C. ulea, t. M. Nicolae	385
S3	15	Some Aspects Regarding the Use of Digital Signal Controllers in Electrical Drivers for Stepper Motors	Emanoil Toma	-	346
S3	97	Design and Control of the Swing Gates with Implementation of Multiple Command Systems	Ciprian Afanasov	L. Mandici, M. Ra	393
S3	98	Regarding the NVH behavior of the more electric vehicles. Study case of a small PM motor	Florin Laz r	D. Lucache, A. Simion, P. N. Borza, L. Livadaru	401

Sec i- unea	ID	Titlul lucrării	Prim autor	Co-autori	Pagina
Vol II					
S 4	18	Optimal control of an electrical drive system with variable torque	Corneliu Boan	F. Ostafi	25
S 4	84	Study on the identification of an actuator	Ioan Ruja	E. Spunei C. Marta I. Piroi M. Ro u	55
S 4	46	Flywheel Energy Storage Drive System for Wind Applications	Marius C. Georgescu	-	49
S 4	8	A New Method of Modeling The Hybrid Stepper Motor and Simulation Sequences Control	George Mihalache	Gh. Livin , P. Stan	13
S 4	35	Current Control of the Single-Phase Full-Bridge Power Inverter	Marian Gaiceanu	R. Buhosu, G. Gurguiatu, C. D. Balanuta	37
S 5.1	33	Integrated Photovoltaic System Used as an Alternative Power Source	Lauren iu Alboteanu	Gh. Manolea F. Ravigan	75
S 5.1	49	System for Monitoring and Analysis of Vibrations at Electric Motors	Gabriela Ra	M. Ra	97
S 5.1	71	A.c. Power Measurement Using Power Analyzer Associated with External Transducers. Accuracy and Uncertainty Evaluation.	Marinel Popescu	C. Dobrea, t. eitan	105
S 5.1	37	On-line Identification of the DC motor Parameters by using Least Mean Square Recursive Method	Marian G iceanu	R. olea, B. Coders, C. Eni	85
S 5.1	7	Monitoring system dynamic regimes with variable reluctance synchronous motors	Gheorghe-Eugen Sub irelu	M. Dobriceanu, A. M. Enache, N. Boteanu	65
S 5.1	93	Diagnosis System for Elements Power	Virginia	M. Brojboiu,	117

		Rectifiers	Ivanov	S. Ivanov	
S 5.1	94	Reliability Evaluation of Electrical Networks	Victor Popescu	-	125
S 6.1	25	Power System Restoration with Black-Start Pump Storage Power Plants	Walter Sattinger	-	131
S 6.1	48	Improving Compensation Performance in Three-Phase Active Power Line Conditioners by DC-Voltage Control	Mihaela Popescu	M. Dobriceanu Gh. Oprea	167
S.6.1	67	Considerations on Numerical Protections for Induction Motors Connected in MV Industrial Power Systems	Gheorghe Hazi	A. Hazi	189
S.6.1	86	Calculation of Industrial Power Systems Containing Induction Motors	Gheorghe Hazi	A. Hazi	201
S.6.1	55	Evaluation of Current Control Methods in Three-Phase Shunt Active Power Filters System	Constantin Vlad Suru	M. Linca, C.A. Patrascu	177
S.6.1	34	Technical and economic analysis of sofstarter use in low voltage networks	Virgil Maier	S. Gh. Pavel I. Birou H. Gh. Beleiu	137
S.6.1	47	High Performance Shunt Active Power Filter: Design Consideration and Experimental Evaluation	Alexandru Bitoleanu	M. Popescu, C.V. Suru	153
S.6.1	88	Gas Boiler Powered by the Fuel Cell System	Nicolae Badea	M. Costin	211
S.6.1	39	Determination Of The Level Of Influence Of Various Factors On The Reliability Of Power System	Victor Popescu	-	147
S.6.2	63	Retention of powders from flue gases resulted from the combustion of lignite in high energy boilers in thermal power stations	Ion Teodor Ciochiu	V. Osiac, B. Huza, Gh.M. L. Ciurezu, A.M.Mousavi	235

S.6.2	32	Improving Filter Performances for Conducted Elec-tromagnetic Interferences Suppression	Adina R c an	C. Munteanu, V. Topa, C. P curar, C. Hebedean	223
S.6.2	85	Powder collection from flue gases resulting from the burning of lignite in boilers from high power energy power plants	Ion Teodor Ciochiu	V. Osiac, A.M. Mousavi, B. Huza, L. Gh. M. Ciurezu	247
S.6.3	76	Calculation of control circuits in time domain using Scilab/ Xcos environment	Petru Chioncel	S. Dr ghici C.P. Chioncel	297
S.6.3	77	Calculation of control circuits in frequency domain using Scilab environment	Petru Chioncel	E. Spunei C.P. Chioncel	303
S.6.3	78	The Role of Mentoring in Entrepreneurship Training. PREMIO Case Study	Nicoleta Gillich	C.P. Chioncel	309
S.6.3	51	A review of the influence factors on solar photovoltaic (PV) systems	Cristian Chioncel	L. Augustinov, V. Nedelea	291
S.6.3	10	Optimizing Street Lighting Systems Design	Elisabeta Spunei	I. Piroi, F. Piroi	257
S.6.3	11	Notes on LED Installations in Street Illumination	Elisabeta Spunei	I. Piroi, F. Piroi	269
S.6.3	31	Educational approach to information transmission channels of data from two different viewpoints: combinatorial and probabilistic	Silviu Draghici	C.V. Anghel Drugarin, A. A. Minda, M. Raduca, E. Raduca	281
